Section 13-301.2. Program to Foster Elimination of the Digital Divide. The Commission shall require by rule that each telecommunications carrier notify its customers that if the customer wishes to participate in the funding of the Program to Foster Elimination of the Digital Divide he or she may do so by electing to contribute, on a monthly basis, a fixed amount that will be included in the customer's monthly bill. The customer may cease contributing at any time upon providing notice to the telecommunications carrier. The notice shall state that any contribution made will not reduce the customer's bill for telecommunications services. Failure to remit the amount of increased payment will reduce the contribution accordingly. The Commission shall specify the monthly fixed amount or amounts that customers wishing to contribute to the funding of the Program to Foster Elimination of the Digital Divide may choose from in making their contributions. A telecommunications carrier shall remit the amounts contributed by its customers to the Department of Commerce and Community Affairs for deposit in the Digital Divide Elimination Fund at the intervals specified in the Commission rules.
